Summary

Passionate and detail-driven tech enthusiast with a foundation in software development and a commitment to learning. Looking for an entry-level role to contribute to impactful projects while advancing my skills in a collaborative environment.

Education

KCG College of Technology

Bachelor of Engineering - Computer Science Engineering

Chennai

Expected Apr 2027

Work Experience

SDE Intern

Interain AI

Apr 2025 – Current

Chennai

- Built core UI and product features for the company's SaaS platform using Next.js, React, and Tailwind CSS, improving usability and supporting early customer demos
- Implemented responsive, accessible, and high-performance pages with clean component architecture and reusable UI patterns
- Collaborated closely with design and product teams to deliver pixel-accurate UI, ensuring fast iteration and consistent release quality via Git-based workflows

Web Developer

Social Sync (Part-time)

Mar 2025 – Nov 2025

Chennai

- Designed and developed business websites tailored to client needs, ensuring responsive and user-friendly interfaces
- Implemented SEO strategies that improved client website visibility and Google search rankings
- Delivered projects for diverse clients including Daysee, Amar Impex, Dashagriv, and Mother Care School

Projects

Supply Chain Management System

[View Code](#) — [View Project](#)

- Built an end-to-end supply chain management system to track inventory, orders, suppliers, and logistics in real time
- Implemented role-based access for manufacturers, distributors, and retailers with secure data flow across the supply chain
- Integrated analytics dashboards to monitor stock levels, demand trends, and delivery performance

Showcasee - Portfolio builder for Everyone

[View Code](#) — [View Project](#)

- Developed a portfolio builder platform that enables users to create and showcase professional developer portfolios with minimal setup
- Designed reusable, configurable templates allowing users to customize sections such as projects, skills, experience, and social links
- Built the project as a reference implementation for modern full-stack development, suitable for showcasing best practices in UI, architecture, and deployment
